

ANOTHER FLYING SAUCER DEBUNKED

Lismore, May 29.—The two weeks old flying saucer mystery in the Lismore district was solved this morning when the saucer was identified as an aircraft. A "strange object" appeared in the sky at 7.45 a.m. about the same time as on previous occasions. C. Heterington of Bora Ridge looked at the object through a telescope and discovered it was the morning newspaper plane coming from Casino.
