

LISMORE "FLYING SAUCER" FOUND TO BE PLANE

LISMORE, Monday.

A two weeks' old "flying saucer" mystery in the Lismore district was solved this morning when the "saucer" was identified as an aircraft.

The "strange object" appeared in the sky at 7.46 a.m. about the same time as on previous occasions.

Mr. C. Hetherington, of Bora Ridge, looked at the object through a telescope and discovered it was a morning newspaper plane coming from Casino.
