

## **'Saucer' Sighted Near Mt. Gambier**

MT. GAMBIER.—Four men claim to have seen a flying saucer at Koondi, Messrs. F. and J. Livingstone's station, 23 miles from Mt. Gambier.

They were Messrs. J. A. Blackmore, C. Blackmore, L. McQuade and P. McQuade.

Mr. J. A. Blackmore said they saw the flying saucer at 12.55 p.m. on May 23, flying south east, probably five or six miles high, travelling very fast in a straight course.

He said he had not reported the saucer before, as everyone they mentioned it to asked them if they had been drinking.
