

Flying Saucer Report In S.A.

ADELAIDE. Friday.—Two Bordertown men said to-day that they had seen an object in the sky that might have been a flying saucer.

Mr. J. C. Tippett and Mr. P. Grainger, painting contractors, said that, while they were working on Taunton Station, at Wirrega, they saw a round object which appeared to be many miles up in the sky going at high speed towards the north-east.

The object, they said, was shaped like a tadpole and had a glowing tail similar to a jet aircraft.
