

## **Flying saucer report in SA**

**ADELAIDE.—Two Bordertown men said that they had seen an object in the sky that might have been a flying saucer.**

**Mr. J. C. Tippet and Mr. P. Grainger, painting contractors, said that, while they were working on Taunton Station, at Wirrega,, they saw a round object which appeared to be many miles up in the sky going at high speed towards the north-east.**

**The object, they said, was shaped like a tadpole and had a glowing tail similar to a jet aircraft.**
