

"Flying Saucer" Over Geelong

MELBOURNE, Tuesday.—When four-year-old Paul Bepps called out to his father, Mr. Fred Bepps, at his home in Mt. Pleasant road, Belmont, Geelong, at 3.30 p.m. yesterday, that there was an aeroplane in the sky, Mr. Bepps, a former flying instructor in the R.A.A.F., looked up to see what he described as a "flying saucer."

Hoping to obtain another witness, Mr. Bepps rushed to the house of a next-door neighbor, but by that time the saucer had disappeared.
