

## **LETTER TO THE EDITOR**

### **Flying Saucer Alarm**

Sir.—May I draw attention to the fact that the "Flying Saucer" seen in the sky should be reported at once to the public, say by fire alarm, etc., so the whole town could go and view such a wonder. Seeing is believing in my opinion and we may all be able to deduct something by this.

It is an extra special affair, do you not agree, and of interest to all? How about a plane being in readiness and a camera for photos, etc. Hoping my suggestion meets with approval of all. —  
**(Miss) ENA Y. SMITH, Mount Gambier.**
