

# **FLYING SAUCER HAD ROAR LIKE THUNDER**

**OAKLAND (California), June 21 (A.A.P.):** A flying saucer roaring like thunder at over 1,000 miles an hour was reported early today.

Three control tower officers said the disc-shaped object dived five times over Hamilton air force base.

It approached at altitudes between 2,000 and 5,000 feet, shooting a blue flame.

The men said they followed the disc's course with binoculars.

Corporal Roger Pryor commented: "At first I thought it was a falling star, but it didn't fall, it kept on going."
