

FLYING SAUCER REPORT

Dived at U.S. Air
Base

NEW YORK Thursday.—A flying saucer, "roaring like thunder at over 1,000 miles an hour," was reported early yesterday at Oakland (California), where three control tower officers said the disc shaped object dived five times over Hamilton air base. They said it approached at an altitude of between 2,000 and 5,000 feet, shooting blue flame. One of the trio, who followed the disc's course with binoculars, said he first thought it was a falling star, but "it did not fall—it kept on going."
