

FLYING SAUCERS ARE REAL

OAKLAND, California, Thursday.—A flying saucer “roaring like thunder at more than 1,000 m.p.h.” was reported here yesterday.

Three control tower officers who followed its course with binoculars said that the disc-shaped object dived five times over the air force base. It approached at altitudes between 2,000 and 5,000 feet, shooting blue flame.

Cpl. Roger Pryor commented: “At first I thought it was a falling star, but it did not fall. It kept going.”
