

TODAY'S "FLYING SAUCER" REPORT

Australian Associated Press

OAKLAND, California, Wednesday. — A "flying saucer," roaring like thunder at more than 1000 miles an hour, was reported early today.

Three control tower officers said that a disc-shaped object dived five times over the Hamilton air base. It approached at altitudes between 2000 and 5000 ft., shooting out a blue flame. The men said they followed the disc's course with binoculars.

Corporal Roger Pryor commented: "At first I thought it was a falling star, but it did not fall. It kept on going."
