

Flying Saucer Seen, 'Roaring Like Thunder'

OAKLAND (California) Thurs: A "flying saucer", "roaring like thunder at over 1000 m.p.h." was reported here early yesterday.

Three control-tower officers who followed its course with binoculars said that a disc-shaped object dived five times over Hamilton Air Force base.

It approached at altitudes between 2000 and 5000 feet, shooting blue flame.

Corporal Roger Pryor commented: "At first I thought it was a falling star. But it didn't fall; it kept going."
