

Flying Saucer Aerobatics

OAKLAND, California, June 22. — A flying saucer roaring like thunder at over 1000 miles an hour was reported early today.

Three control tower officers said a disc-shaped object dived five times over Hamilton air force base.

It approached at altitudes between 2000 and 5000 feet, shooting blue flame.

The men said they followed the disc's course with binoculars. Corporal Roger Pryor commented: "At first I thought it was a falling star, but it didn't fall — it kept on going."
