

Saucer "Roaring Like Thunder"

OAKLAND (Cal.), Wed. (A.A.P.).
—A flying saucer roaring like thunder at more than 1,000 m.p.h. was reported early today by three control tower officers.

They said the disc-shaped object dived five times over Hamilton air force base.

It approached at altitudes of between 2,000ft. and 5,000ft. shooting blue flame.

The men said they followed the disc's course with binoculars.

Cpl. Roger Pryor commented: "At first I thought it was a falling star, but it didn't fall."
