

## **FLYING SAUCER "LIKE THUNDER"**

OAKLAND (California). June 21.—A flying saucer roaring like thunder at over 1000 miles an hour was reported early to-day.

Three control tower officers said the disc-shaped object dived five times over Hamilton air force base.

It approached at altitudes between 2000 and 3000 feet shooting a blue flame.

The men said they followed the disc's course with binoculars.

Corporal Roger Pryor commented: "At first I thought it was a falling star, but it didn't fall, it kept on going."
