

FLYING SAUCER REPORT

Mr. Neil Campbell, a garage owner at Lilydale, believes he saw a "flying saucer" yesterday morning.

HE said that shortly before 9 o'clock, when he was driving a bus load of children to the Lilydale Area School he stopped at the top of Tunnel Hill to pick up some children and saw a "glaring mass" in the west. It was travelling at a terrific speed and heading in a south-westerly direction.

So that he might hear any noise, he switched off his motor, but could hear no sound.

Mr. Campbell then drove the bus about 400 yards down the hill, but the object had disappeared over the hill towards the Tamar River.

"The object shone with such a blinding glare that I could not bear to look at it for any length of time and consequently could not determine its size or shape," added Mr. Campbell.

added Mr. Campbell.

At the time the sun was not shining and the sky was dull.

All the children in the bus saw the object, said Mr. Campbell.

He said he believed it might have been a "flying saucer."
