

Space-Ship Theory Blazoned In "Flying Saucer" Articles

These splash headlines published just over a week ago in four British newspapers with a total circulation of many millions show the increasing seriousness with which the "Flying Saucer" mystery is being treated. In the past three years hundreds

the past three years hundreds of reports have been received, mainly from America, but from other countries too, of "eye-witness" accounts of the mysterious "Saucers." Some reports claimed that the "Saucers" were manned by midget men from another planet; others claimed that they were secret weapons or optical illusions.
