

'Flying Saucer' Reported Over Lisarow

"Last Monday evening about 6 o'clock I saw a strange round silvery object moving slowly in the sky," writes Mrs H. Mackey, of Hill View, Lisarow.

"It seemed miles away and was going in a south-easterly direction.

"I pointed it out to my son and a friend who seemed to think it was a plane with the sun shining on it.

"But we could hear no sound.

"It did not seem like a plane to me and hearing that a flying saucer had been reported in Brisbane, I now believe it was a flying saucer I saw."
