

Maryborough Sees "Flying Saucer"

MARYBOROUGH, December 6.—Maryborough residents tonight watched a "flying saucer" make a wide sweep over the district.

About 8 o'clock a bright blue object was seen travelling at a great speed to the north and returned at a low level.

Approaching the River Heads direction the phenomenon moved perpendicularly to an estimated 8000 ft.

The president of the Maryborough RSL sub-branch (Mr S. Bryant-Smith) said he estimated its speed at 400 to 500 m.p.h.
