

FLYING SAUCER

Brisbane. — Another "flying saucer" has been reported from **Maryborough**, about 200 miles north of **Brisbane**.

Residents reported it was "bright blue and made a wide sweep over the district."

It was first seen about 8 p.m., travelling fast to the north. It returned at a low level.

Approaching the river mouth, it moved almost vertically to an estimated height of 8,000 feet.

Mr. S. Bryant-Smith, **Maryborough R.S.L.** sub-branch president, estimated its speed at 400 to 500 miles an hour.
