

'Saucer' seen over Domain

Two Melbourne visitors said last night they believed they had seen a flying saucer over Sydney Domain.

They are Mr. and Mrs. R. Williams.

Mr. Williams said he was walking in the Domain with his wife at 8 p.m. when he saw the "saucer."

He estimated that the cigar-shaped object he saw was cru-

ing at between 1200 and 1500 miles an hour

Mr. Williams said he based his estimate of speed on the speed of R.A.A.F. jet fighters—about 500 miles an hour.

Mr. J. Kelly, of West Ryde, also saw the object.

He estimated its speed at more than 1000 m.p.h.

The Government Astronomer (Mr. Wood) said he had not seen the object.

He added: "It's hard to see

seen the object.

He added: "It's hard to say what it was on the details available, but it seems as if it was a meteor."
