

"Flying Saucer" Reported

Miss Shirley Smith, of Avoca Beach, believes that she saw a flying saucer at Avoca last Thursday.

"I was going home about 6.30 pm when I saw something spinning round and round," she told "The Gosford Times."

"It was out to sea a little, and at first I thought it was a helicopter. I watched it for a while and then it disappeared. I'm sure it must have been a flying saucer."

(Mrs H. Mackey, of Lisarow, reported last week that she had seen a flying saucer moving slowly in the sky.)
