

"SAW FLYING SAUCER AT LATROBE"

A woman who has not believed in flying saucers is now convinced that they exist. She is Mrs. J. A. Lovell, of Bridgewater, who claims to have seen one at Latrobe about 4 p.m. on Tuesday.

Mrs. Lovell, who with her husband, Sgt. J. A. Lovell, of the R.A.E.M.E., was holidaying with Mrs. George Young, of Latrobe, when her attention was drawn by her six-year-old son to a strange object travelling low and at high speed in the direction of Railton.

Mrs Lovell's husband, who was interviewed in the Devonport office of "The Advocate" yesterday, said his wife was engaged in house duties when his son ran in to tell her he had seen a strange object in the sky. Mrs. Lovell said the object was oval with a black bottom, and appeared to have a silver edge. It was silent.
