

Flying Saucers Seen Again

SYDNEY, Fri.—Hundreds of Brighton le Sands residents tonight reported they had seen flying saucers over their district.

Residents said the objects appeared in the west and disappeared in the east.

Switchboards in newspaper offices became jammed with calls from people wanting to know what the objects were.

One resident, Mr. B. Cole, said there appeared to be about 50 of the objects.

"They were high up and travelling at a terrific speed. They were so high they appeared as 'big as threepenny pieces,' said Mr. Cole.
