

Sydney Reports Mass Of 'Flying Saucers'

SYDNEY, Friday.—Hundreds of residents of Brighton le Sands tonight reported that they had seen "flying saucers."

Residents said the objects appeared in the west and disappeared in the east.

Phone calls from people wanting to know what the objects were jammed newspaper office switchboards.

Mr. B. Cole said there appeared to be about 50 of the objects.

"They were high up and travelling at a terrific speed," he said.

"They were so high they appeared as big as threepenny pieces."
