
FLYING DISK REPORT

To meet the public demand for the second instalment of "Is Another World Watching Us?" Gerald Heard's amazing factual report on flying saucers, extra copies of "The Western Mail" will be published on Thursday.

Last week's issue, containing the first chapter, was sold out. For the many intending readers who failed to secure a copy, a special reprint of the first instalment has been made. These will be supplied free on application to the publisher, Newspaper House, Perth. Posted requests should enclose stamps for return postage.
