

# **FLYING SAUCERS AGAIN**

**NEW YORK, Wed.**

**Flying saucers are back again.**

**Airline pilots and about 50 residents at the Eastern end of Rainy Lake near International Falls, Minnesota, have reported "Flying Saucers."**

**People on the ground said they saw "one crystal ball" which performed like a "huge humming bird" as it flashed across the skies.**

**It was joined later by another "crystal ball."**

**An airlines pilot reported a "bluish white star played touch with his plane at an altitude of 21,000 feet south west of Dodge City, Kansas.**

**The pilot said the "bluish white star" dashed around his plane at 500 to 800 m.p.h.**

**Minnesota observers said an object dashed across the sky at speeds "in excess of 800 mp.h."**

**The object stopped suddenly and hung motionless above International Lake and then shot upward where it was joined by a second object.**
