

Flying Saucer Outpaces Jets

New York, September 11.—Two Airforce jet fighter pilots reported today that they chased a mysterious round flying object for 30 miles yesterday without catching it. They estimated that the object was travelling at 900 miles an hour.

One pilot, Lt. Rogers, said: "I don't know if it was a flying saucer, but it sure was something I've never seen before." He said they could not have caught it in America's fastest plane.
