

New "Flying Saucer" Report in U.S.

TUCSON (Arizona): The U.S. Air Force yesterday had a new "flying saucer" report to worry about.

At least four men stationed at an air force base near Tucson on Thursday reported seeing a strange oval-shaped object in the air. One of them described the object as five or six times as large as a Superfortress' bomber.

Flight Commander "Chick" Logan said: "It was not like a saucer, but more oblong. I flew as high as I could to 14,000 ft., and it still appeared to be a long way. It was real bright, and shone like polished aluminium. I have been flying for 25 years now, and I have never seen anything like it."

The Air Force announced that it had alerted field commands to report on "unconventional aerial objects." It had done this, the Air Force said, because there had been a number of sightings of "un-

a number of sightings of "un-
usual aerial manifestacions"
'hat could not be explained.
