

# Canadian Flying Saucer Reports

**NORTH BAY, Ontario (A.A.P.).—Two reports of flying saucers in this area of Canada are to be investigated by the Royal Canadian Air Force.**

**O**FFICIALS said yesterday that a warrant officer with 13 years in the service and a flight sergeant had reported spotting a bright amber disc in the sky over the North Bay airfield.

The two said that the disc came from the southwest, moved across the airfield, stopped, and then took off in the reverse direction.

It climbed at an angle of 30 degrees at "terrific speed" and disappeared.

Another warrant officer and a sergeant had reported a saucer appearing at a great height, probably outside the earth's hemisphere.

An R.C.A.F. spokesman said that there was no reason to doubt the validity of the reports since the men concerned were seasoned vet-

cerned were seasoned vet-  
erans.
