

## 'FLYING SAUCER' IN NZ

WELLINGTON, Mon (AAP): A report of a flying saucer over New Zealand came today from north Auckland farmer J. Erceg, of Kokopu, 13 miles west of Whangarei, who claims to have seen an oval boat-shaped object travelling across the sky on Saturday night.

Mr. Erceg said that the object was bright blue and it seemed about 10 to 12 feet long.

It travelled across the sky "slower than a meteor, but faster than an aircraft."

The saucer travelled north to south, Mr. Erceg claims to have seen it while he was returning with his family from an evening at the pictures.
