

## **FLYING SAUCER OVER N.Z.**

### **FARMER'S REPORT**

**WELLINGTON, Apr. 28**  
(A.A.P.-Reuter's).—The report of a flying saucer over New Zealand came to-day from a North Auckland farmer, Mr. J. Ercog, of Kokopu, 13 miles west of Whangarei, who claims to have seen an oval boat-shaped object travelling across the sky at 10.35 p.m. on Saturday.

Mr. Ercog said that the object was bright blue and seemed about 10 to 12 feet long. It travelled across the night sky "sooner than a meteor but faster than a plane." The saucer travelled from north to south.

Mr. Ercog claims to have seen it while he was returning with his family from an evening at the pictures.
