

N.Z. flying saucers

WELLINGTON, Apr. 28. — Report of a flying saucer over New Zealand came to-day from North Auckland farmer J. Erceg, of Kokopu, 13 miles west of Whangarei, who claims to have seen an oval, boat-shaped object travelling across the sky at 10.35 p.m. on Saturday.

Erceg said the object was bright blue and seemed about 10 to 12 feet long. It travelled across the night sky "slower than a meteor, but faster than a plane."

The saucer travelled from north to south. Erceg claims to have seen it while he was returning with his family from an evening at the pictures.
