

N.Z. REPORT OF FLYING SAUCER

WELLINGTON (A.A.P.-Reuter). — A north Auckland farmer reported yesterday that he had seen a flying saucer high over his property at Kokopu, 13 miles west of Whangarei.

HE was Mr. Erceg who claimed that while returning with his family from an evening at the pictures on Saturday they saw "an oval boat shaped object" travelling across the sky.

It was bright and blue in colour and appeared to be a number of small objects, 10 to 12 feet long, clustered together.

The whole object, in his opinion, was slower than a meteor but faster than a plane.
