# Report of Flying Saucer Over New Zealand

**WELLINGTON:** A report of a flying saucer over New Zealand came yesterday from a North Auckland farmer, Mr. J. Erceg, of Kōkōpu, 13 miles west of Whangarei, who claims to have seen an oval boat-shaped object travelling across the sky at 10.35 p.m. on Saturday.

Mr. Erceg said the object was bright blue, and seemed about 10ft. to 12ft. long. It travelled across the night sky "slower than a meteor, but faster than a plane."

The saucer travelled from north to south.

Erceg claims to have seen it while he was returning with his family from an evening at the pictures.
