

# NZ Farmer Reports Flying Saucer

---

WELLINGTON, April 28. —  
A report of a flying saucer over New Zealand came today from a farmer, J. Erceg, of Kokopu, 13 miles west of Whangarei (North Auckland). He claims to have seen an oval, boat-shaped object travelling across the sky at 10.35 p.m. on Saturday.

Erceg said the object was bright blue and seemed about 10 to 12 ft long. It travelled across the night sky "slower than a meteor, but faster than a plane" and went from north to south.

Erceg claims to have seen it while he was returning with his family from an evening at the pictures.
