

'Saucer' Over Nowra

SYDNEY, Sun.—Fresh reports reached Sydney today of mysterious "flying saucers" seen over the South Coast and northern Victoria, yesterday.

One report from a young motor cyclist near Nowra described the "saucer" as a bright, glittering object shaped like a cigar.

The other, from Benalla, was seen by an interstate truck driver and his wife at 3 a.m.

The driver said the object had rows of lights on either side and was travelling at high speed.
