

# Claims She Saw 'Flying Saucer'

LISMORE, Wed. — A farmer's wife yesterday claimed she saw a flying saucer over Mt. Burrell near Murwillumbah. Mrs. Will Grant said she saw a silent, very bright object fly over Mt. Burrell at a great speed. She said it could not have been a meteor. The sky was overcast and she heard no sound of an aircraft engine.

A meteor would have disappeared more quickly, she said.

She watched the object until it disappeared behind the hills. It left a trail of red-blue flashes.
