

RAAF Will Check On "Saucers"

SYDNEY. Thursday.

The RAAF is making its own investigation into Sydney flying saucer reports.

Two RAAF men have been detailed to interview people who were reported to have seen mysterious objects like flying saucers.

An RAAF spokesman said that it was the responsibility of the RAAF to provide air protection and obviously unidentified air movements must be investigated.

"I would investigate even if people reported flocks of khaki-colored eagles," he said.
