

"FLYING SAUCER" AT BUNDABERG

REPORT BY FISHERMEN.

BUNDABERG, May 13.— Three men, employees of the Bundaberg Foundry, while fishing on Monday night, sighted a bright object in the sky, which they later described as a "flying saucer." The three men were Ron Corrogan, Des Dahl and Ted Rayner.

They saw a silvery, near oval-shaped object travelling at a great speed across the sky. They said that the object appeared to be travelling in an easterly direction at a height of 3000 to 4000 feet. The object was about the same size as an aeroplane and was like a football in shape.

The three men said that they saw it for about 10 seconds before it completely disappeared. They assert that it was not a falling star or a meteor.
