

BUNDABERG FLYING SAUCER REPORT

BUNDABERG, May 13. — Three men, employees of a Bundaberg foundry, sighted a bright object in the sky on Monday night, which they later described as a "flying saucer." The three men were Ron Corrogan, Des Dahl, and Ted Rayner.

They saw a silvery near-oval shaped object travelling at great speed across the sky. They said the object appeared to be travelling in an easterly direction at a height of 3000 or 4000ft. The object was about the same size as an aeroplane and was like a football in shape.

The men said that they saw it for about 10 seconds before it completely disappeared. They vouch that it was not a falling star or a meteor.
