

"Flying Saucer" Over Bundaberg

BUNDABERG, May 13.—While fishing on Monday night, three Bundaberg men sighted a bright object in the sky which they later described as a "flying saucer."

The men—Ron Corrogan, Des Dahl, and Ted Rayner, employees of the Bundaberg Foundry, said they saw a silvery, near oval-shaped object travelling at great speed across the sky.

They said the object appeared to be travelling in an easterly direction. It was about the same size as an aeroplane.

The men said they saw the object for about 10 seconds before it disappeared. They said they were positive it was not a falling star or a meteor.
