

# ***NSW Townspeople See Flying Object***

**SYDNEY, July 21.**

A heart-shaped object with a brilliant multi-colored tail flashed through the sky over towns up to 200 miles apart in the north-west slopes areas tonight.

At the same time thousands of residents of many towns were startled by loud reports and deep rumbling noises which sent them into the open to investigate the cause.

The main force of the loud reports appeared to be centred in the Coolah district.

The strange flying object was reported from Coolah, Dunedoo, Merriwa, Blackville, Werris Creek, Cassilis, and towns as far north as Upper Manilla.

All towns reported seeing it and feeling the effects of the rumblings about the same time—7.55 p.m.

Residents of several towns where the heart-shaped object was reported declared that buildings shook as it passed over.
