

## **"FLYING SAUCER DIVED AT CAR"**

**ENID (Oklahoma) July 30.**—A salesman told police here that his car had been almost swept from the road last night by a huge flying saucer which had swooped low at a high speed. Mr. Sid Eubanks, aged 50, was trembling when he walked into the police station. Mr. Eubanks said that the object which he described as a "yellow green, then yellow brown streak about 400 feet long" had dived low over the road, turned round and then disappeared in a few seconds. He said: "The tremendous pressure nearly threw my car off the road."
