

## **“FLYING SAUCER” SWOOPED LOW**

ENID (Oklahoma), July 30.—A salesman told police here that his car had been almost swept from the road last night by a huge “flying saucer” which had swooped low at high speed.

Mr. Sid Eubanks, aged 50, was still trembling when he walked into the police station.

Mr. Eubanks said that the object, which he described as a “yellow green, then yellow brown streak about 400ft. long,” had dived low over the road, turned round, and then disappeared in a few seconds.

He said, “The tremendous pressure nearly threw my car off the road.”
