

'Mystery object' chased

New York, Sunday

Two fighter pilots chased a "flying saucer" over Dayton (Ohio) yesterday.

They reported that "something" colored red and white hovered for about 10 seconds at 17,000ft.

Then it disappeared at high speed, they said.

moon, and travelling very fast."

Another saw "a bluish light, with a tail sweeping across the sky."

Central Weather Bureau officials said the lights could not have been fireworks or shooting stars.—A.A.P.

The pilots added that they patrolled the area for a while afterwards, "making sure it had not been a light reflection."

The "saucer" was seen over the Wright-Patterson Air Force base.

In Tokyo flying saucers were reported over Japanese territory for the first time on Friday night.

People in the western sub-

urbs saw lights moving in the sky.

One person described the light as "like a lump of moon, and travelling very
