

FLYING SAUCER SINGED HIM

PALM BEACH, Florida (A.A.P.).—A report from “the only man in the world to claim that he had had his hair singed by a flying saucer” was received by the United States Air Force last week.

REVEALING this on Saturday night, an Air Force intelligence officer said that the man was a Scoutmaster (Mr. Desvergers), who had reported that he was riding in a car last Tuesday night with three Scouts on the edge of the Florida Everglades when he saw flashing lights.

He walked through the brush, leaving the Scouts in

the car and telling them to call the police if he was not back in 10 minutes.

He said that he saw an object “large enough for six or eight men to stand in.”

It was about 10 feet high in the centre, about 30 feet in diameter and shaped like a half rubber ball, tapering down to a three-foot thickness on the side.

There was a phosphoric

ness on the side.

There was a phosphorus effect around the side.

"I believe I was under and near it for about three minutes," he said. "It was only 10 feet from the ground. It made a hissing sound like a tyre going down."

Mr. Desvergers said "they" (apparently meaning those in the object) shot a ball of fire at him that seemed to "float slowly at my face."

The hair on his arm was singed and three holes about one-eighth of an inch in diameter were burned in his Scout cap.

The Scoutmaster said he then blacked out and when he awoke had "no sense of feeling, and even now I have a tingling as when your foot loses circulation and goes to sleep."
