

## 'FLYING SAUCER' SEEN OVER NORSEMAN

**N**ORSEMAN, Wed: Several members of the staff of Norseman Goldmines at 1 p.m. yesterday saw a peculiar object in the sky over Norseman.

Mr. W. Long, a geologist with the company, said the object was round and silver, very much like a saucer, and was travelling slowly in an easterly direction north of the town.

He was about to put a telescope on the object when it disappeared behind high cloud, and it was not seen again.
