# **Don't Get Hit By A Flying Saucer!**

**I**N the United States of Hysteria, a man says a flying saucer attacked him.

Flying saucers, like mythical "Red submarines" and General Robertson's armada of Chinese canoes pushing towards us through the typhoon, can be dangerous.

In America, they say that when the air force estimates have to be pushed through, to slug the people harder, the flying saucers always arrive on schedule.

When the naval estimates are before Congress, an unidentified sub. is seen off the West Indies, with someone whose vision is sharpened by
