

## **"FLYING SAUCER" REPORT**

**BY AUCKLAND RESIDENTS.**

**AUCKLAND.** Sept 30 (A.A.P.-Reuter's). — A claim that they saw a "flying saucer" was made to-day by a reputable Auckland resident and his wife.

Like a large aeroplane 10,000 feet up, it flew southward from horizon to horizon, disappearing in about six seconds. "It was an elongated form of cigar or tubular shape, showing on the visible side six or eight lights," he said. "There was no sound other than a barely audible 'woosh.'"

The "saucer" was seen at 10 p.m. on September 27.
